

~~SECRET~~

PROGRESS REPORT OF THE GEOGRAPHIC AREA, ORR  
MONTH OF MARCH 1958  
OFFICE OF THE CHIEF, GEOGRAPHIC RESEARCH

A. Accomplishments and Coordination Activities

1. Work output in the Geographic Research Area for March showed a gentle rise over that for recent months. In addition to a wide variety of finished reports and maps, production included the preparation of special briefings and coordinations related to Indonesia, the Antarctic, and Soviet mapping and geodesy. Considerable effort was also expended on technical and substantive development of photo intelligence

2. The Cartography Division completed 103 maps and charts--4 for the Department of State, 1 for the Department of Commerce, and 98 for the Agency. Requests for 101 maps and charts were accepted, 2 for the Department of State, 1 for the Department of Commerce, and 98 for the Agency. The Special Support Branch completed 40 maps and charts, and accepted requests for 30 new maps and charts; in addition, 2 revisions were accepted and completed.

25X1A2d1 25X1A2d1 25X1A2d1 25X1A2d1  
3. The Geography Division completed eight Geographic Intelligence Reports (GR-125, [redacted] GR-155, Territorial-Administrative Divisions of the USSR (Text and Atlas); GR-162, Evacuation Geography of Austria; GR-164, Urban Area Study; Korea; GR-172, [redacted] GR-173, [redacted] GR-174, [redacted] and GR-175, 25X6A on India; one NIS Chapter [redacted] one NIS Section 19, Chapter I, ANNUAL, 25X1A2d1 on India; two memoranda in the G/I series; and three support jobs in the G/S series.

4. The Map Library Division received 4,096 maps and 678 related publications from foreign sources. Of the total, 36% were retained in CIA, 36% sent to AMS, and 18% to the Library of Congress. A total of 27,229 map sheets were disseminated in answer to 1,386 requests. The area involving the greatest concentration of requests continued to be Indonesia. Requests for general reference information not requiring the forwarding of materials to requestors appear to be steadily on the increase: 316 of these requests were answered, representing the highest number for any one month to date.

5. The Photo Intelligence Division completed a total of 25 reports and memoranda in connection with the DCI project "Equilateral." Other reports completed were PIM(L)-32, Breil to Vidola, France RR; PIM(L)-33, Unidentified Installation near Tsing-Tao, China; and PIM(L)-34, Code: [redacted]

6. Arrangements have been concluded with St/I and St/A for the transfer to St/I of the reading panel function formerly accomplished internally by the GRA. Members of the St/I Reading Panel are currently being briefed in detail on GRA divisional functions.

25X1A2g

~~SECRET~~

S-E-C-R-E-T

25X1X7

25X6A

25X1X7

7. The Cartography Division completed and forwarded to [REDACTED] 25 final maps for Chapters II and IX of the [REDACTED]. This represents the completion of the division's commitment to [REDACTED] to date. It is expected that additional requests will be initiated by [REDACTED]

25X1X7

25X1C4a

8. [REDACTED] has concluded his prolonged and complicated negotiations for procurement of the official maps of Iraq with impressive success. Over 7,000 sheets, including all Iraqi production since 1947, are presently on their way to the Map Library Division.

25X1A9a

9. [REDACTED] of the Geography Division presented an NSC briefing paper on the "Military Geography of Sumatra" before the regular National Security Council meeting at the White House on 27 Marc. The briefing was subsequently expanded to cover all of Indonesia for presentation at a regular OCI briefing session.

25X1A9a

10. [REDACTED] Geography Division, participated in a seminar on "Political and Economic Geography of Communist Asia" at the Industrial College of the Armed Forces. The discussion concerned the economic capabilities of Communist Asian countries to wage modern industrialized warfare.

11. The recently-established program of internal ORR briefings by members of the GRA was continued with the presentation of a report on the intelligence significance of Antarctica by [REDACTED], Geography Division.

25X1A9a

12. GG/S has assumed the new responsibilities pertaining to the Soviet Arctic that were formerly fulfilled by S/OM.

13. The fourth presentation of the course in photographic interpretation was concluded during the month. Response to the course continues to be very strong; it is estimated that two years will be required merely to satisfy current demand.

25X1A9a

14. At the suggestion of the Chief, WH/Plans, [REDACTED] of the Geography Division participated in a meeting called by General Erskine, Director of the Office of Special Operations, Department of Defense, to develop plans for future U.S. operations in Antarctica. The Special Research Staff of D/CG also reviewed an Army paper on Soviet achievements and capabilities in geodesy and cartography, conferred with AFCEIN 4E4 on a joint intelligence study of Soviet geodetic and gravimetric activities, and advised ONR on a report recommending a guidance system for U. S. Navy missile weapons.

25X1A9a

15. [REDACTED] D/GL, spent one week at the [REDACTED] for purposes of exploiting GRA information sources and to brief Contact Specialists on Map Library requirements. As a result of this visit, a greatly increased amount of material was received from the [REDACTED] in March.

25X1A6a

25X1A6a

25X1A9a

16. [REDACTED] Geography Division, participated in the Fifth presentation of the Arctic Indoctrination Course at Ottawa and Fort Churchill, Canada, 12-26 March 1958.

S-E-C-R-E-T

17. A number of GRA personnel attended sessions of the annual meetings of the American Congress of Surveying and Mapping and the American Society of Photogrammetry held at the Shoreham Hotel.

25X1A9a

18. [REDACTED] visited the Mann Instrument Corporation and Spica Inc. in Massachusetts to inspect measuring equipment produced by these firms.

25X1A9a

25X1A5a1

D/GP, met with [REDACTED]

25X1A5a1

[REDACTED] concerning research and development problems.

25X1A5a1

25X1A9a

25X1A5a1

20.

[REDACTED] of D/GP joined other Agency people in a trip to the [REDACTED]

to provide assistance on certain technical problems. [REDACTED]

also visited the [REDACTED] to obtain information on photographic systems.

MONTHLY REPORT FOR THE CARTOGRAPHY DIVISION

Month of March 1958

A. Summary of Cartographic Production and Accomplishments

1. During March the Cartography Division accepted requests for 101 maps and charts, 98 for CIA, 2 for the Department of State, and 1 for the Department of Commerce. Of the total Agency requests, 22 were by ORR, 23 by OSI, 37 as CIA contributions to NIS, 7 by ONE, 5 by DD/S and 4 by DD/P. During the month the Division completed 103 maps and charts, of which 98 were for the Agency, 4 for the Department of State and 1 for Department of Commerce. Of the completions, 71% represented work in the USSR-Satellite Area, 14% in the Far East and Western Hemisphere, 10% in the Europe-Africa and Near East and 5% international and general coverage.

2. The NIS Coordinator received 22 color proofing jobs and 10 final NIS maps from reproduction during March. One hundred and fifty one (151) final maps and 4 color proofing jobs remain in reproduction at the end of the month.

3. The Special Support Branch accepted requests for 30 new maps and charts during the month; 2 from ORR, 26 from OGI, 2 from OSI. Completions of maps and charts during the period totaled 40, 15 for ORR, 23 for OGI, and 2 for OSI. In addition 2 revisions were accepted and completed.

4. The total number of maps and charts in the Division at the end of March was 470 distributed among the Branches as follows:

USSR & Satellites	86
Europe-Africa	53
Far East & W. Hemisphere	59
Special Support	77
Development & Construction (exclusive of Drafting Section)	195

Total 470

B. Administrative Problems and Other Activities

1. The production of work by the Division has been adversely affected by the existence of an overload of work in the Printing and Reproduction Division. Because of the overload of work in the

S-E-C-R-E-T

S-E-C-R-E-T

reproduction plants our ability to meet planned deadlines is seriously restricted and is forcing the D/GC to extend time requirements when accepting new work. Steps are being taken to work out a more satisfactory arrangement with the Printing and Reproduction Division.

25X1A9a

2. [REDACTED] D/GS, will to on TDY training in the preparation for his forthcoming 2-year tour of duty at [REDACTED] 25X1X7

3. During the month a meeting was held with D/GL where agreement was reached on more efficient measures for carrying out current distribution and control procedures for D/GC maps. 25X1X7 25X1X7

4. During the month the Division completed and forwarded to [REDACTED] 25 final maps for Chapters II and IX [REDACTED] This represents completion of the D/GC commitment to [REDACTED] to date. It is expected that additional request will be initiated by [REDACTED]

Military Geography of Sumatra  
(NSC Briefing)

NSC (thru DCI)

B. Progress of Work in the Branches and Staffs

25X1A2g Far East Branch: Completed production of the Branch included GR-125, [REDACTED] which has been disseminated; the GG/F contribution to the NIS Annual on India; and papers, which were presented orally, on Political and Economic Geography of Communist Asia (for a seminar at the Industrial College of the Armed Forces), and on Military Geography of Sumatra (for a National Security Council meeting). [REDACTED] was completed in draft 25X1A2g form, was forwarded to the Division Chief for review, and submitted for editing. The proof copy of Sinkiang: An Evasion Geography has been approved for publication and distribution.

25X1A2g USSR Branch: Completed and issued work of the Branch included GR-172, [REDACTED] G/I-253, [REDACTED] Reconstruction 25X1X7 of the Mariinskiy Canal System; G/S-28, A Summary of Administrative Data on Krasnoyarsk Kray for the Foreign Agricultural Service, USDA; and GR-155, Territorial Administrative Divisions of the USSR (text and atlas). Proof copies of GR-172, Geographic Analysis of Novaya Zemlya, were received from Reproduction and approved for publication. GR-178, [REDACTED] 25X1A2g has been completed and is in typing; and the Urban Area Study on Noril'sk has been submitted for editing. An inordinate amount of time was spent in preparing evaluations (16) and requirements (4). Continuing efforts are being directed toward UW reports, and toward studies of USSR Railroads, and Agroclimatic Aspects of Corn Cultivation in the USSR.

25X1A2d1

25X1A2d1

25X1A2d1 Near East-Africa Branch: During March, emphasis was placed on priority production. Two UW feasibility studies -- GR-176, [REDACTED] and GR-177, [REDACTED] -- were completed and were in typing as the month ended; a third -- [REDACTED] -- is well advanced. Significant recent information was incorporated into G-21, Northern Afghanistan, which is now in the office of Ch/G for review. The Branch contribution to NIS-29, Section 19, was completed and submitted to GG/C; and research was initiated on NIS-34, Chapter IX. Progress was made on the E and E's for Afghanistan and Iraq, but both have been set aside in favor of priority studies. A commendation on the recently issued G/E-79 was received from the Deputy Assistant Secretary for African Affairs, Department of State.

Sanitized - Approved For Release : CIA-RDP61-00391R000100010063-0

25X1A2a Sanitized - Approved For Release : CIA-RDP61-00391R000100010063-0

Europe Branch: Three UW reports -- GR's -173, 174, and 175: [REDACTED] -- were completed and sent to the requestor. Two photolithed reports -- GR-162, Evasion and Escape Geography of Austria; and GR-164, Urban Area Study: Korçe -- were published; and proof for a third -- G-19, Postwar Development of the "Western Territories" of Poland -- has been received and approved for publication. Two GM's were in progress, and work continued on one E and E report, one NIS Chapter IX, one UW study, and one city plan. Work was initiated on two border studies, one NIS Chapter IX, one urban study, and, tentatively, on an article on Polish railroads. The month was unusually active in the matter of briefings and successful contacts with other parts of the Agency.

Special Research Staff: Effort during the month was divided between Antarctic problems and the collection of geodetic and gravimetric data and maps. Culmination of high-level review of US policy on Antarctica required analyses of proposals, the preparation of maps, and the providing of intelligence on Soviet and other foreign stations. USAF interest in equalizing the prospective disparity in the US-USSR exchange of geodetic and gravity data led to consultations with GG/X concerning intelligence on Soviet collection efforts and desirable US countermoves. Additional time was also devoted to the consideration of a request by US scientists to strengthen US operations in Antarctica during the coming season as well as after the conclusion of the IGY. Recommendations were incorporated in the paper forwarded to the DCI.

25X1A9a

[REDACTED] devoted most of her time during the month to work on Antarctica. G/I-252, a compendium of population and area data on Latin American countries, was forwarded to OBI; and G-20, International Boundaries in Latin America, was approved by Ch/G and sent to Reproduction.

Editing and Review Staff: The editing load continued heavy during March. A total of 8 edited reports (GR-125, 155, 162, 164, and 172 through 175) was issued, 5 of which were received, edited, and reproduced during the month. Six other reports are in Reproduction, and 3 more were edited -- G-21 is in the office of Ch/G for review, and GR-176 and 177 are in typing. Of the 5 reports remaining in Editing, 4 were received as the month ended. The fifth, which is Part II of a series, is being held for coordination with Part I. The biggest problem now facing GG/R is the standardization of UW reports.

Coordination Staff: Chapter IX of [REDACTED] to OBI in March. Coordination of Chapter IX was started early in the month. Because of the size and complexity of this chapter, it is doubtful whether it can be completed by the due date of June. Work has not been started on either of the two smaller Chapters IX that are also included in the FY 58 schedule. The proposals for the preparation and scheduling of NIS 26, Chapter IX, that were agreed upon by the Chapter IX Subcommittee in February were approved by the NIS Committee on 18 March.

25X6A

Sanitized - Approved For Release : CIA-RDP61-00391R000100010063-0

25X1A9a Other: Most of the work of [REDACTED] was spent on the Department of State (IRC/GE) civil-divisions project.

## II. RELATIONSHIPS OUTSIDE THE GEOGRAPHIC AREA

25X1A9a [REDACTED] presented an NSC briefing paper on the Military Geography of Sumatra before the regular National Security Council meeting at the White House on 27 March.

25X1A9a [REDACTED] participated in a seminar on Political and Economic Geography of Communist Asia at the Industrial College of the Armed Forces. The discussion concerned the economic capabilities of Communist Asian countries to wage modern industrialized warfare.

25X1A9a [REDACTED] attended a briefing of the new Ambassador to Czechoslovakia, John Moore Allison, formerly Ambassador to Indonesia. Briefing was done by [REDACTED] 25X1A9a

25X1A9a [REDACTED] participated in a conference with Lt. Commander Walter Morgan, ANA, Moscow, on the value of city plans to the intelligence collection program.

25X1A9a [REDACTED] attended the Fifth Arctic Indoctrination Course at Ottawa and Fort Churchill, Canada, from 12 to 26 March.

25X1A9a [REDACTED] conferred with Dr. S. Winkler, ONR, concerning a report recommending a guidance system for US Navy missile weapons, during which emphasis was placed on the necessity for the collection of Soviet maps if Navy missiles are to become effective.

25X1A9a At the suggestion of General Erskine, Director of the Office of Special Operations, Department of Defense, Dr. Joyce requested a conference between [REDACTED] for the purpose of seeking Agency support in the reassignment of the Air Force Unit to IGY traverse operations in 1958-59. [REDACTED] in the formulation of a proposal, which is now before the DCI for consideration.

25X1A9a [REDACTED] 25X1A9a [REDACTED] at the suggestion of the Chief, WH/Plans, participated in a meeting called by General Erskine to develop plans for future US operations in Antarctica.

The Staff of GG/X was requested by Lt. Col. Lafon, Office of the Chief Engineer, Army, to review a paper on Soviet achievements and capabilities in geodesy and cartography for delivery at a high-level Defense briefing.

Sanitized - Approved For Release : CIA-RDP61-00391R000100010063-0

Sanitized - Approved For Release : CIA-RDP61-00391R000100010063-0

25X1A9a

[REDACTED] at the invitation of USAF personnel, participated in a discussion of (1) the desirability and means of establishing US controls over the free dissimination of US geodetic and gravimetric data to the USSR and (2) the facilitating of an equalized exchange of similar Soviet data.

25X1A9a

[REDACTED] conferred several times with Major Best, AFCIN 4E4 concerning coordination of efforts on a joint intelligence study of Soviet geodetic and gravimetric activities.

Conferences were held with Major Best, AFCIN 4E4, to clarify a coordinative arrangement worked out with his predecessors on a joint intelligence study of Soviet geodetic and gravimetric activities. Under this arrangement, reports of one of our consultants on developments in geodesy and gravimetry are given to ATIC (AFCIN 4E4). Significant developments selected for analysis in depth are translated and assigned to ATIC consultant-specialists for appraisal. The appraisals are referred to the two GG/X consultants for review of judgment expressed. After difference of view are reconciled, arrangements are made for publication. The translation of a lengthy Soviet study on isostasy is about to be referred to ATIC consultants for appraisal. Plans are being formulated to broaden the list of consultants to include foreign scientists engaged through Air Technical Liaison Officers (ATLO) of ATIC stationed abroad.

### III. ADMINISTRATION

D/GG external training requirements were set up for FY 1959. Requests included: Area Analysts Program -- Africa (1 person); celestial mechanics, Georgetown University (1); advanced theoretical geodesy, Georgetown University (1); Arctic Indoctrination Course at Ottawa and Fort Churchill, Canada; Arctic and Regional USSR, Summer School, Sanstead, Quebec (2); work at Laboratory of Climatology with Thornthwaite, Seabrook, N. J. (1); summer program in executive development, University of Chicago (2); and graduate seminar on economic geography (1).

The comments of Far East, USSR, and Europe Branches on the OTR Area Training conference were incorporated in a memorandum from Ch/G for SA to Ch/RR. The comments included an evaluation of the current program and suggestions for improvements.

The settlement of the territorial dispute in Southern Morocco following Department of State intercession -- as reported in the New York Times of 3 April -- coincides with the substance of G/E-79, Spanish Territorial Boundaries in North Africa, by [REDACTED] on 17 February. A commendation on this report was received from the Deputy Assistant Secretary for African Affairs, Department of State, in which he stated, "This carefully prepared report is most illuminating and helpful in our consideration of foreign policy problems ...."

Sanitized - Approved For Release : CIA-RDP61-00391R000100010063-0

GG/S received written commendation from Chief, NED/OSI, for G/1-231.2, Soils of the Beloborodovo Area, written by [REDACTED] 25X1A9a

25X1A9a

[REDACTED] conferred with [REDACTED] on the production of NIS Annuals and on the agenda for next NIS Committee meeting. 25X1A9a

25X1A9a

[REDACTED] discussed requirements with [REDACTED]. 25X1A9a

25X1A9a

[REDACTED] consulted with Aquatone officials.

25X1A9a

On 5 March, [REDACTED] lectured before the Intelligence Orientation class.

25X1A9a

On 6 March, [REDACTED] lectured before the Clandestine Services Review Course.

25X1A9a

On 17 March, [REDACTED] briefed the Geographic area on the subject of Antarctica.

Meetings of Branch Chiefs with representatives of Records Management began on 13 March; by 27 March the job of arranging all Branch files to conform with the Agency-approved file system had been completed.

25X1A9a

Beginning about 21 April, [REDACTED] will be temporarily assigned to GG/C to assist in the coordination of one NIS Chapter IX.

25X1A9a

25X0A

[REDACTED] GG/F. has been assigned the responsibility for Melanesia, Polynesia, and Micronesia.

25X1A9a

[REDACTED] completed D/GP's Photo Intelligence course and submitted evaluations of it.

GG/S has been assigned certain new responsibilities pertaining to the Soviet Arctic that were formerly fulfilled by S/OM.

MONTHLY REPORT FOR THE MAP LIBRARY DIVISION

MARCH 1958

25X1C4a

1. [REDACTED] with responsibility for map procurement in the Middle East, has brought to a very successful and impressive conclusion his prolonged and complicated negotiations with Iraqi officials with respect to procurement of official maps of Iraq. His constant effort, patient and careful discussions, and persistent follow-ups resulted in his obtaining all the maps produced by DG Surveys since 1946 that were requested on want lists or that seemed desirable. In addition to a half-dozen indexes, various numbers of copies of each of 1,502 map titles (totalling 6,315 sheets in all) were flown from Baghdad by the U.S. Naval Attaché for delivery to [REDACTED] and are now being prepared for sea pouch shipment to the U.S. This significant and remarkable collection provides comprehensive coverage of Iraq and includes maps published by both Government and commercial concerns. The map scales range from 1:10,000, 1:20,000, and 1:50,000 from DG Surveys, 1:20,000 for Hunting, Fairley, and KLM maps, a British series at 1:126,720, and various other maps, both series and individual, at scales from 1:255,440 to 1:1,000,000. In addition, there were various city plans at scales from 1:4,000 to 1:25,000.

25X1C4a

25X1A9a

2. [REDACTED] has returned to Buenos Aires after a procurement mission in Bolivia. A brief trip to Uruguay is contemplated.

25X1A9a

[REDACTED] plans to conduct procurement in Aichi prefecture during April. [REDACTED] completed his Ganges Valley-Assam mission and

25X1A9a

will conduct a mission to Bombay and a number of state capitals in April. [REDACTED] is in Beirut and plans a brief trip to Jordan to

25X1A9a

participate in negotiations dealing with aerial mapping for mid-April.

25X1A9a

[REDACTED] is in Paris and plans to begin his mission to Italy in early

25X1A9a

May. [REDACTED] is conducting procurement in Yugoslavia and expects to return to [REDACTED] in mid-April. [REDACTED] begins an 8-week mission to

25X6A

25X1A9a

3. See the next page for a summary of Statistics for Receipts, Processing and Disbursement of the Map Library Division, March 1958.

4. The Reference Branch serviced 1,386 requests for maps and 69 requests for publications. This required forwarding 27,229 map sheets and 235 volumes. Requests were predominantly "RUSH." Indonesia remained the area of greatest concentration. The USSR and Satelliten were next with respect to number of requests. Among the requests for maps were those which were used for conferences with USSR delegates in the Conference room in the Department of State.

~~S-E-C-R-E-T~~

Requests for general Reference information not requiring the forwarding of materials to requestors appears to be steadily on the increase. 316 of these requests were answered, the highest number to date. This total was 71 more than in any month in 1957, and higher than in January or February of this year. The Place Name Desk conducted research on 148 requests for Place Name information.

154 CIA-published maps have been added to the Reference Branch sample file.

5. In addition to the requests that were serviced by the Reference Branch, the Air Targets Unit filled 233 requests and also sent 755 new sheets to the Depository.

6. The Cataloging Section broke last month's record by cataloging 1,113 new titles, of which 1,087 were specialty maps, and 26, series. 3,688 new sheets were processed and added to the Collection.

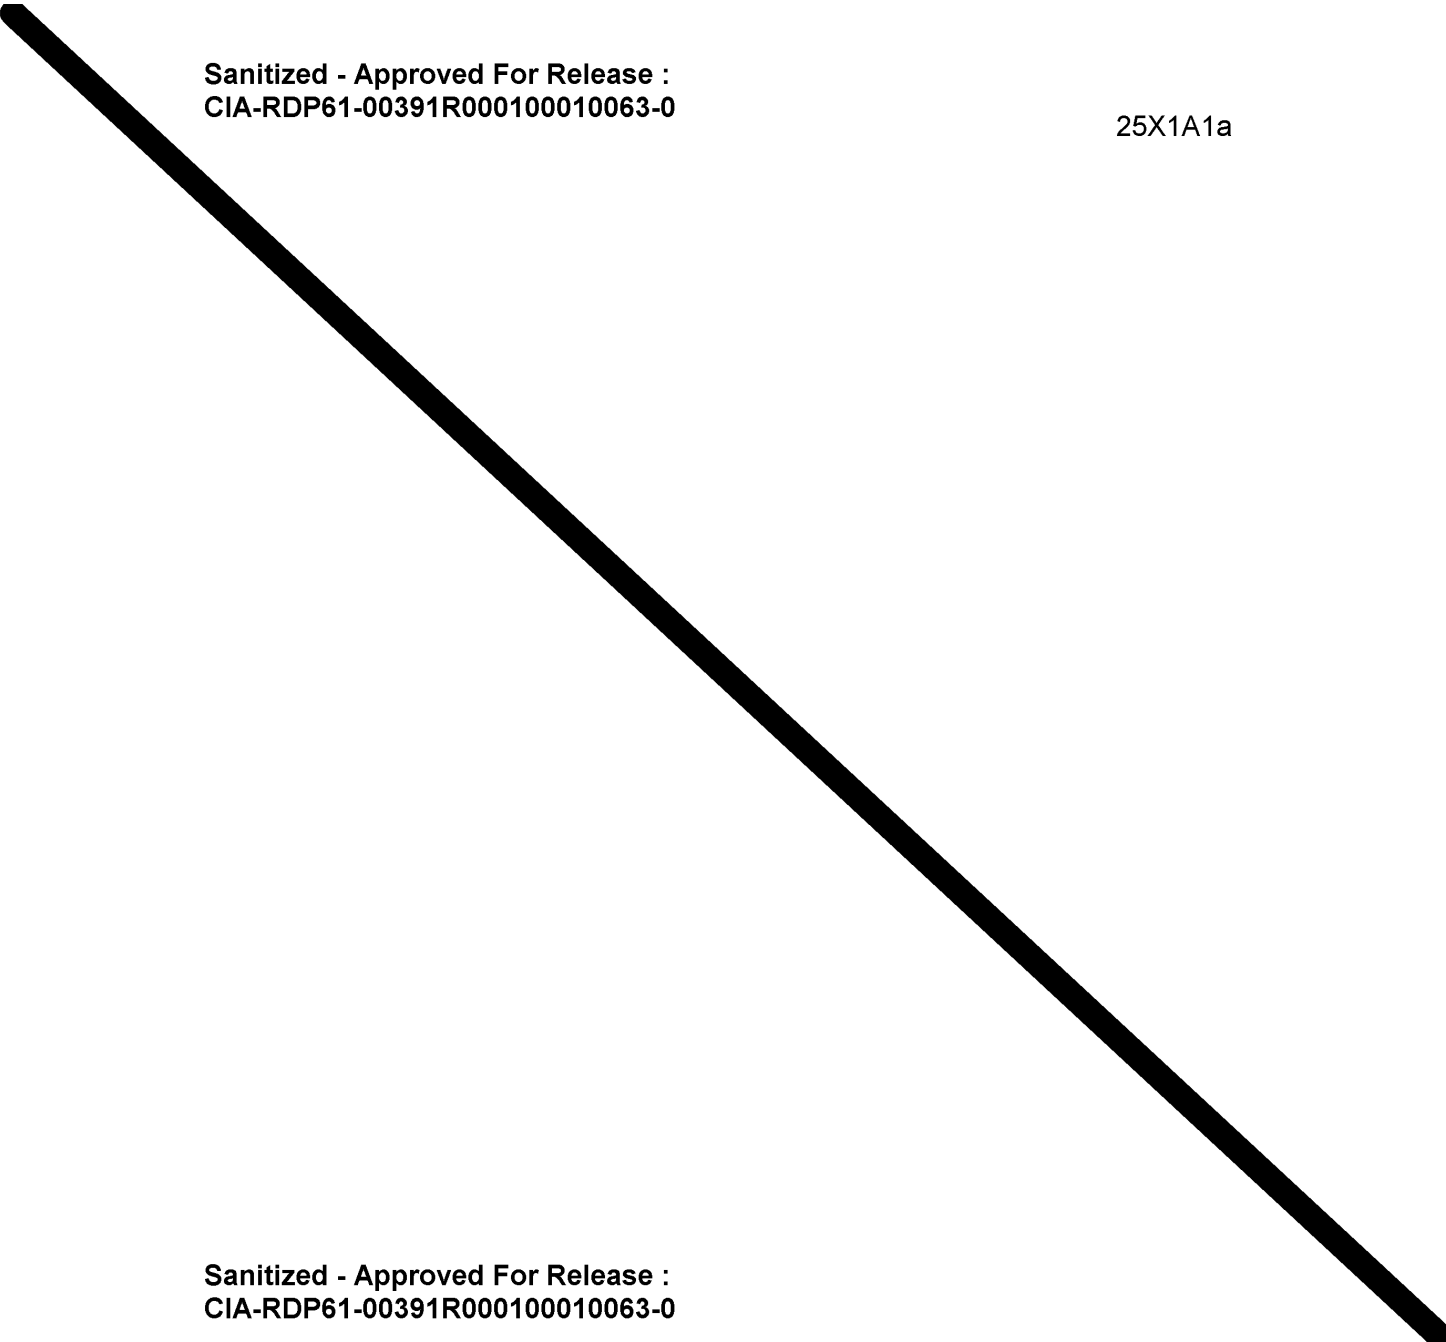

7. Demands upon the Collection Section were heavy this month. In response to one request, the Distribution Unit pulled approximately 1,800 maps and charts covering the Indonesian area for a crash project in OCR/SR.

8. Among the significant items which were received by the Procurement Branch during the month were the following items: a) "National Atlas of India," 1957, in Hindi; (Table of contents and legend are in Hindi and English); b) Detailed gazetteer for the Soviet Zone, published in East Berlin, 1958; c) 1958 street guide to Berlin (East and West); d) 1957 city plan of Bucharest; e) Plans for 32 Swedish cities; and f) A copy of the map catalog of the Schweizerisches Landesbibliothek.

9. [REDACTED] of the Domestic Procurement Section, spent one week at the [REDACTED] for purposes of exploiting Geographic Research Area information sources and to brief Contact Specialists on Map Library requirements. As a result of this visit, a greatly increased amount of material was received from the [REDACTED] in March. 25X1A6a

10. Printing of the administrative map of Jordan was completed and copies of both the English and Arabic editions were shipped to the Department of Lands and Surveys.

11. Outgoing communications for March totalled 207. 171 items related to foreign procurement, and 36 to domestic correspondence.

MONTHLY REPORT FOR THE PHOTO INTELLIGENCE DIVISION  
MONTH OF MARCH 1958

A. SUMMARY OF ACCOMPLISHMENTS:

1. Activity in the Division was at a high level during the month with most of the effort spent on top priority projects for the DCI, DD/I, and DD/P. In addition to the effort of the Division summarized below much time was devoted to research and development, numerous technical and substantive consultations and to the training program.

2. Projects, Requirements and Reports:

a. Reports issued

(1) Written	18
(2) Verbal	10

Total reports issued - 28

b. Reports in edit 13

c. Reports in reproduction 8

d. Projects cancelled 5

e. Requirements received 42

(1) ORR	23
(2) Self Initiated	8
(3) OSI	4
(4) DD/P	4
(5) Army	1
(6) NSA	1
(7) OTR	1

Total 42

f. Projects in process

(1) Geographic Branch	24
(2) Industrial Branch	25
(3) Special Proj. Branch	23
(4) Tech. Intellig. Branch	16
(5) Central Branch	16

S E C R E T

B. ACCOMPLISHMENTS BY COMPONENTS:

1. Support Staff: Forty-two requirements were received during the month representing an increase of eight over the preceding month. Thirteen reports are in edit and eight are in reproduction. One hundred and four projects are assigned and undergoing analysis within the branches. The staff has devoted much time to the development of improved methods of project control and reporting procedures. Handling of documents, processing requests for reproduction, editing of reports, and other routine functions continued as major activities of the Support Staff. In addition, considerable time was devoted to numerous meetings and consultations in coordinating activities with Agency and non-Agency components.

2. Special Projects Branch: Most of the effort was spent in the production of miscellaneous working papers, special graphics and reports in support of requirements levied on the Division. Four reports (DP-SP-F79-57, P37-58, P40-58, and P92-58) were issued during the month. The branch is working on 23 projects.

3. Geographic Branch: Five written reports were completed during the month. In addition, seven requirements were satisfied by verbal reports to the requesters. Fifty-nine percent of the branch project time was devoted to the ORR, Geographic Area, with work spent on two Escape and Evasion and several urban area studies, and the WAC Intelligence Overlay program. The ORR, Economic Area accounted for 26% of the project time resulting in the completion of three reports and continuing work for I/WA, I/GM, I/SH, M/FM, M/CH, M/FP, and I/AR. Nine percent of the project time was devoted to DD/P and 6% to OSI. The branch is working on 24 projects.

4. Industrial Branch: Most of the effort of the Branch was spent in support of the JAEIC, GMIC, and Bacteriological Warfare working committees. Six written and eight verbal reports were produced during the month. Three of the published reports which are in a large format with correlated illustrative materials have been very well received. Three additional reports in a similar format are in the final stages of preparation. Materials are being prepared for use by the working JAEIC and GMIC committees which will probably result in additional reports of the same type. The Branch is now able to obtain and use in the working area certain materials which are essential in much of their analysis effort. Work continues on 25 projects.

5. Technical Intelligence Branch: Branch effort was devoted primarily to top priority items in support of the JAEIC and GMIC committees and problems pertaining to research and development. Time was spent on projects pertaining to camera calibration, electronic computer programming, metrical analysis and in the production of graphic materials.

S E C R E T

A report was completed for a DD/P requester. A recording and reporting system for the recently consolidated Special Projects and Technical Intelligence Branches was developed and implemented. Plans have been submitted for the more efficient relocation of personnel and equipment in the Branch spaces. The Branch is working on 16 projects.

6. Central Branch: Three memoranda were issued during the month, five are in edit and one is in reproduction. A report on the "Breil to Vidola RR, France" was issued as PIM (L)-32 and "An Unidentified Installation Near Tsing-Tao, China" which is a probable meteorological station was reported in PIM(L)-33. PIM(L)-34, [REDACTED], reports 25X1A2g railroad traffic on a Soviet rail line. Work continues on studies concerned with railroad facilities and traffic and on electronic installations, military storage areas, industrial complexes, and military defense installations. The fourth presentation of the Photographic Interpretation Course ended 18 March. The response to the course has been very good, and, according to St/A, it would take two years to satisfy current demand for the course. Lectures were also presented to the DD/P Photo Course, Intelligence Orientation Course, and the Clandestine Services Review Course. A meeting of the JCS Working Group on Ground Photography held in Central Building was chaired by [REDACTED] 25X1A9a

B. ADMINISTRATIVE AND PLANNING:

- 25X1A9a 1. [REDACTED] met with Branch Chiefs regarding the assignment of projects, areas of responsibilities and modified reporting procedures.
- 25X1A9a 2. [REDACTED] conferred with [REDACTED], OSI, 25X1A9a regarding publication and distribution of supplements to the Scientific Intelligence Digest and Scientific Intelligence Memoranda.
- 25X1A9a 3. [REDACTED] met with [REDACTED] and 25X1A9a Captains Stevens and Taylor, U.S. Army, concerning projects of joint interest and methods of best utilizing the information developed up to this point.
- 25X1A9a 4. [REDACTED] attended an Office of Naval Research briefing on high altitude photography. Apparently the Navy is devoting much more effort to the program. 25X1A5a1
- 25X1A9a 5. [REDACTED] met with [REDACTED] 25X1A5a1 concerning research and development problems. 25X1A5a1
- 25X1A9a 6. [REDACTED] visited the [REDACTED] to inspect measuring equipment produced by these firms. 25X1A5a1

S E C R E T

25X1A9a 25X1A5a1  
7. [REDACTED] in company of other Agency personnel journeyed to [REDACTED]  
25X1A5a1 [REDACTED]  
common concern.  
25X1A9a  
25X1A5a1 8. [REDACTED] visited the [REDACTED], 25X1A5a1  
[REDACTED] to obtain information on photographic systems.

9. Division personnel attended sessions and viewed exhibits at various times during the annual meeting of the American Society of Photogrammetry held at the Shoreham Hotel from 26 to 28 March 1958. A number of items of value and interest to the Division were gained from the visits.

C. MISCELLANEOUS

- 25X1A9a  
25X1A9a 1. [REDACTED] is enrolled in the Russian Familiarization Course.  
25X1A9a 2. [REDACTED] completed the Fourth P. I. Course which ended 18 March.  
25X1A9a 3. [REDACTED] is enrolled in the Basic Country Survey, USSR Course.  
25X1A9a 4. [REDACTED] completed the Intelligence Orientation Course which ended 28 March.  
25X1A9a 5. [REDACTED] completed the Basic Management Course which ended 28 March.  
25X1A9a 6. [REDACTED] are on TDY overseas.  
25X1A9a 7. [REDACTED] are in process for reassignment to D/GP. [REDACTED] were transferred to D/GP during the month. [REDACTED] departed D/GP in LWOP status.  
25X1A9a 8. [REDACTED] attended a briefing on the Enrico Fermi Nuclear Power Plant.  
25X1A9a 9. [REDACTED] completed a two day Guided Missile Intelligence Orientation Course given by OSI.  
25X1A9a 10. [REDACTED] attended briefings on Controlled Thermonuclear Reaction presented by [REDACTED] OSI.  
25X1A9a 11. [REDACTED] is on two weeks military duty which began 24 March.
